## Introduction

Welcome to your Natal Chart report.

Your Natal Chart report is an astrological chart based on the mathematically precise positions of the planets and the Sun & Moon at the time, date and place of your birth. It provides you with insights into your character and personal life potentials by indicating the strengths you have and the challenges you experience in life.

Your Natal Chart report covers among other things your primary motivation in life, your identity, emotions, mentality, love and sexuality, spirituality, earning ability and career potentialities and so on.

In some parts of the report you will come across apparent contradictions in the descriptions of your character. This is to be expected; people are complex and have many contradictory facets to their personality.

# Ascendant

**The Ascendant describes your personality and image, the face you show the world, and the nature of your personal and wider environment.**

## **Ascendant in Cancer**

Your primary motivation in life is to feel emotionally secure. You are sensitive and emotional; however you can also be over-sensitive and easily hurt by people. You are receptive to the needs of others and have a natural desire to care for or protect people. Family and domestic matters are always important to you and your home is your retreat and sanctuary. At times, you are susceptible to changeable moods, irritability and touchiness.

## **Ascendant Sextile Jupiter (7°43' A)**

Without even really trying, you make a good impression on others and are usually favoured in life. You have an outgoing and positive personality, which others find attractive and appealing. Broadminded and enthusiastic, you have an eagerness for knowledge and travel. You come into contact with people who can help you socially, financially and professionally.

## **Ascendant Opposition Saturn (3°26' S)**

You are quite a complex person; some days you come across as shy or inhibited and other days as authoritarian and controlling. You are very practical and take your responsibilities seriously. Possibly, you have held responsible positions throughout your life, perhaps even since childhood; e.g. you may have had to look after younger siblings. You are quite self-contained and tend to keep your own counsel, consulting with others only when you need to. This can make you appear aloof or distant and give you a reputation for unilateral decision-making. Experience has made you circumspect in your dealings with others. You tend not to suffer fools gladly and have little time for silliness and trivialities. Sometimes you experience difficulties relating to others, or you just cannot be bothered with the demands of relationships. You may shun company and spend periods in seclusion. It is possible that you may experience periodical bouts of low vitality.

## **Ascendant Opposition Uranus (4°51' S)**

You are an original personality and delight in your uniqueness and individuality. You insist on having the freedom to do as you wish, even if it unsettles others. You are a non-conformist and, in all likelihood, ahead of your time. To some people, you are an exciting person to be around; to others you are just too unconventional for them to understand. You need to take care not to come across as too eccentric or weird, because you may isolate yourself socially. You are intrinsically restless and will tend to

have many changes of environment throughout the course of your life. You may be a technological whiz.

### **Ascendant Opposition Neptune (4°32' A)**

You sometimes seem to be floating on air or living in your own world. This particular aspect is often found in the charts of creative individuals, such as artists and musicians or people who are highly attuned to the inner or spiritual aspects of life. However, it is also present in the horoscopes of those who are susceptible to stimulants or deceivers and cheats. You may need to guard against being led astray or taken advantage of by others.

### **Ascendant Trine Pluto (5°34' A)**

You have the ability to lead others and to subtly get people to do as you wish, usually through gentle but firm persuasion. Other people are attracted to you because you have an irresistible magnetism. You will win friends and influence people because you respect power and know not to abuse it.

## **Sun**

**The Sun describes your sense of personal identity, your creative expression and ability to realise your individual potential and gain recognition.**

### **Sun in Taurus**

You have a practical and down-to-earth nature, coupled with a strong desire to create secure and stable circumstances in life. Possessions and financial matters are important to you and, generally, you like to manage your own finances. You are naturally thrifty and have a knack for recognising bargains. In touch with your physical senses, you know how to enjoy yourself and can, on occasion, indulge in sensuality. You are generally a patient and conservative person that doesn't anger easily; however you become a force to be reckoned with when pushed too far. You tend to prefer the status quo to change, and can be quite inflexible and stubborn when you want to be. An artistic talent is possible.

### **Sun in 11th House**

Your social life is central to your self-development. Your friends are important to you and will tend to remain constant. In fact, you will probably have friends in high places. You are popular within groups or societies and may hold important positions in them. You are socially aware and integrate well with others.

### **Sun Square Mars (3°56' A)**

You are a dynamic personality and a readiness for action is your signature. However, you can also gain a reputation for impatience, quick anger and aggression. You thrive on adventure, love danger and are prepared to take risks that others wouldn't contemplate. You are especially bold, courageous and audacious, but also occasionally reckless and careless. You need to guard against accident proneness. Advancements you make in life are based on your personal efforts and determination. You have quick reflexes and are able to respond to situations immediately. You may enjoy sports; certainly you take pleasure in setting challenges for yourself and competing with others.

### **Sun Conjunct Jupiter (1°46' S)**

You have an essentially positive and optimistic outlook on life, coupled with a strong desire to improve your position in the world. You are motivated to expand your awareness and broaden your horizons, which you can do through travel and higher education. You are naturally enthusiastic, gregarious and generous towards others, but can also be immoderate and wasteful or extravagant. You are inclined to overdo things, especially the good life, which can lead to weight gain and its associated problems.

### **Sun Trine Neptune (4°58' S)**

You are highly sensitive and receptive. Your inner life is very active and mystical experiences are not unfamiliar to you. In fact you are inherently psychic and clairvoyant. You have the power of vision and inspiration, which may be expressed through the arts, healing or in some leadership capacity. Gifted with compassion and sympathy, you have an innate understanding of the needs of other people. You will probably travel far and wide in the course of your life, or at least have an empathy with the sea. Your father may be somewhat elusive or unknowable to you. Prone to seducing influences, you may be susceptible to intoxicants and stimulants.

### **Sun Opposition Pluto (3°56' S)**

You crave power and authority, and are a force to be reckoned with. You are used to getting your own way and have little time for compromise. A dominating personality and a commanding manner can sometimes make you seem pushy and autocratic. You are capable of - and used to - giving orders, but are not so good at taking them. Power struggles of varying degrees are experienced on a daily basis, especially with domineering or authoritarian personalities. You have the capability to achieve most anything you set your sights on, as you have great determination and intense focus; however you can also be extreme and obsessive in your approach to things. You will go through the process of inner transformation and regeneration at different junctures in your life, by taking on new identities after old ones have served their purpose.

### **Sun Sextile Moon's North Node (6°37' A)**

You are essentially people oriented and motivated by the desire to form and cultivate associations. Your natural warmth and exuberance attract people to you and you enjoy being involved in group activities and co-operative ventures. You have an aptitude for public related work and generally prefer the company of intellectually stimulating and creative people. You count important and significant people among your contacts.

## Moon

**The Moon describes your emotional nature, instinctual behaviour and unconscious response patterns, and sense of home and family.**

### **Moon in Sagittarius**

You have a free and easy outlook on life, with a freedom-loving emotional nature. Being emotionally tied down is not your style. You are open and honest in your emotions. Your philosophies and ethics in life are instilled in early childhood and remain with you through life. You have a deep interest in higher learning and a strong curiosity about things, which may lead to long distance travel or tertiary education.

### **Moon in 6th House**

You are motivated by the urge to be of service and to care for the needs of others, which makes you especially suited to the helping or catering professions. An inter-relationship exists between your emotional state, your health and your ability to work effectively. You may be prone to bouts of hypochondria or problems at work through over-sensitivity to others or the work environment. You are likely to have affection for pets or small animals.

### **Moon Opposition Venus (0°53' S)**

You know how to live and how to enjoy the good things in life. You have a taste for luxury, a sense of fun and a liking for parties and clubs. Positively, you have artistic potential, especially in painting, photography, ceramics or music. You have an appreciation of the finer things in life and the capability to become socially sophisticated.

### **Moon Sextile Mars (7°17' S)**

Your feelings and actions are in sync with each other: how you feel determines the way you act or react to situations. You are usually honest about your feelings and have little trouble expressing them. You enjoy keeping busy and initiating new projects and enterprises. Being quite bold and courageous, you will speak your mind and express yourself in a direct and no-nonsense manner in confrontational situations. Others know where they stand with you, as you're always prepared to 'lay your cards on the table'.

### **Moon Conjunct Saturn (5°51' A)**

You tend to be emotionally self-contained and inclined to keep an emotional distance between yourself and others. It would be fair to say that you do not find it easy to express your feelings to others; even those who have your trust. At times, you feel overwhelmed and exhausted by family responsibilities. It is possible that your relationship with a parent is distant or emotionally unfulfilling. There may be general difficulties with the female-sex. You are also given to recycling feelings of anxiety, worry, moodiness and melancholy.

### **Moon Conjunct Uranus (4°26' A)**

You are likely to display strongly individualistic inclinations and self-reliance from an early age, coupled with a tendency to rebel against any restrictions on your freedom and independence. You can be very strong-willed and ambitious and capable of sacrificing emotional and family relationships for the attainment of personal objectives. You have a sharp intuition and can be uncannily perceptive about people and situations. It is possible that you may be attracted to unusual domestic arrangements, such as communal living.

### **Moon Square Moon's North Node (4°36' S)**

You are motivated by the urge to establish spiritual and emotional connections with others. You judge another's character on your initial instincts. Family ties are extremely important to you; however there can be tensions between members of your family. Difficulties with others can arise through a lack of adaptability or insensitivity, leading to estrangements or parting company.

### **Moon Sextile Midheaven (4°48' S)**

In general, there should be a harmonious relationship between your professional life and home life, with neither encroaching upon the other. You have an emotional need for recognition in your vocation. Career moves are most successful when you follow your hunches and instincts.

## **Midheaven**

**The Midheaven describes your highest aspirations in life and means to self-fulfilment, your personal vocation, and your status as perceived by others.**

### **Midheaven in Pisces**

Your highest aspiration is spiritual realisation. This can be achieved through devotion, meditation, compassion and humility. You are receptive and responsive to the needs of others. Self-realisation begins with the transcendence of the material sphere. Your aim in life is to be in the world not of it.

#### **Midheaven Square Mercury (0°08' S)**

For the most part, you are a thinker and a doer. You have the ability to advance vocationally through being clear about what you want to achieve and keeping abreast of developments in your field. You are well-suited to academic work, such as teaching or lecturing, but are equally capable as a communicator or business professional. Media work, acting or politics may appeal to you also. You are probably a good storyteller. Others value your advice because they know you keep yourself up to date and informed. Alternatively, you may experience miscommunications with family members, professional colleagues or authority figures over matters of outlook. Your career path is unlikely to be straight and clear, as you are inherently restless and prone to frequent job changes. At times, your career and family commitments encroach upon one another.

#### **Midheaven Trine Venus (5°40' S)**

You are a warm-hearted and loving individual and, in general, enjoy good relationships with your family and work colleagues. You have a unique sense of style and have quite individualistic fashion tastes and preferences. Status in your career is important to you, and vocational successes are likely in creative occupations or the arts, the beauty or fashion industries, or the public relations sectors.

#### **Midheaven Sextile Saturn (1°04' A)**

You are ambitious for professional success and will work hard to achieve your goals. Naturally self-disciplined, you know that success only comes before work in the dictionary; thus you will apply yourself diligently to your duties. You are a reliable and trustworthy worker, who is capable of holding important and responsible positions. Stability in your career contributes to a stable and secure home life and vice versa.

#### **Midheaven Sextile Uranus (0°21' S)**

You march to the beat of your own drum. While you generally get along well with others, you cherish your independence and the freedom to come and go as you please. Professionally, you will choose a career that is unusual in some way, or you could be attracted to modern occupations involving the latest technological or scientific advancements.

## **Mercury**

**Mercury describes your manner of expression, your powers of communication and intellectual reasoning, your ability to formulate and articulate ideas, and to make decisions.**

### **Mercury in Gemini**

You have a quick and agile mind, with the capability to hold more than one train of thought at a time. You are a versatile thinker and communicator. Through applied learning, you can become knowledgeable in many subjects. Curious and inquisitive, you take an interest in what's going on around you. Equally, however, you can be intellectually superficial and inclined to gossip.

### **Mercury in 12th House**

You need to create a space in your life where you can retreat and entertain your own private thoughts. You are quite happy in your own company and tend to prefer to work alone or behind-the-scenes. You are possibly interested in the occult, mysticism or psychology and may read, write or lecture on these subjects. Also, secrets and plots may intrigue you.

## **Venus**

**Venus describes your appreciation of beauty and the arts, your powers of attraction, and your capacity for close personal relationships and love affairs.**

### **Venus in Gemini**

You enjoy change and variety in your love life and social life. You are attracted to people who have stimulating minds and keen intellects. You, or a lover, can be flighty and flirtatious, which can lead to problems in relationships.

### **Venus in 12th House**

You enjoy quiet and solitude and occasional periods alone to recharge your emotional batteries. You can be shy and reserved in the expression of your intimate feelings and may harbour unspoken love yearnings. Equally, you may have secret admirers or become involved in clandestine love affairs. Be aware that indiscreet activity in regard to matters of the heart could result in scandal and embarrassment.

### **Venus Trine Mars (6°25' A)**

You are a warm-hearted and cordial person who is passionate in love and friendly towards other people. You tend to be favoured in love, as you express affection easily and are naturally attractive to others. You enjoy social activity, demonstrate a lively and outgoing personality and are generally relaxed in company. Artistic talent is highly likely, particularly creative expressions requiring physical or technical ability, such as dance, drama, ceramics or sculpture.

### **Venus Opposition Saturn (6°44' A)**

Regarding matters of the heart, you are cautious and inclined to put practical considerations before romantic desires. You have a tendency to exercise self-control in love, perhaps at the expense of emotional satisfaction and spontaneity. People generally need to earn your trust before you allow them to get too close. Yet, once trust is established, you are very loyal and steadfast. You view relationships seriously and value stability and fidelity in love. You are attracted to people older than yourself and respect their life experience and maturity. At times, you enjoy time alone and are content in your own company. Alternatively, you can be emotionally cool and indifferent, even hardhearted and cold. There may be difficulties in expressing affection and discomfort with intimacy. You can be inhibited and lack self-confidence in love, resulting in periods of loneliness or forced abstinence. Estrangements and separations in love are possible. (Note: artistic excellence is sometimes found with this planetary pairing due to the discipline required for high art).

### **Venus Opposition Uranus (5°19' A)**

You tend to be choosy in love because you need someone who can accommodate your need for freedom and independence. You are attracted to exotic and unusual partners who are independent and up-to-date in their outlooks. A lover who is emotionally dependent or clingy would make you feel very uncomfortable. No matter how much you like or love another you will not allow your independence to be compromised. You rebel against commitment and emotional pressure from others, or being made to feel obligated to meet their romantic expectations of you. Instead, you thrive on change and variety in love and the thrill of the new. Conventional and routine relationships will drive you to distraction. Adventurous and receptive to new experiences, you are fun to be with and open to experimentation. Artistically, you appreciate anything that is modern, original and unique.

### **Venus Square Moon's North Node (3°44' S)**

In general, you have well-developed social skills, coupled with the ability to charm and win over others. You prefer the company of cultured and socially sophisticated people, and tend to cultivate friendships with creative and artistic people. Breakdowns in relationships are possible through disruptive or rude behaviour.

# Mars

**Mars describes the way you act and assert yourself, your basic urges and desires, and your ability to achieve personal goals.**

## **Mars in Aquarius**

You have your own unique ways of doing things and the ability to find innovative solutions to problems. You have a strong urge to act independently and will rebel against any restrictions imposed by others. Other people shouldn't presume to tell you what to do, as they will get a swift reaction. You assert your right to act freely and according to your own truth. You will also stand up for others, especially your friends, when they are being attacked.

## **Mars in 9th House**

You have an enthusiasm for learning and acquiring knowledge. However, you are not a person who just sits back and accepts what you're told or taught; you tend to challenge ideas and outlooks. You can be a sceptic or a religious fanatic, who attacks and defends beliefs with zeal and passion. Equally, your important teachers in life tend to be vigorous assertors or defenders of their points of view. Travel interests you and travelling will broaden your horizons; however you must always take care of yourself physically when abroad. There may be a proneness to legal conflicts.

## **Mars Square Jupiter (5°42' S)**

Your motivation in life is to live life to the max. You are ambitious for personal success and never back down from a challenge. In fact, the tougher something is the more determined you become. You usually manage to achieve whatever you set out to accomplish because quitting never enters your mind. You are a productive, energetic and resourceful person who has ability to organise your affairs well. If other factors in your chart support it, you have managerial and business abilities. At the very least, you are decisive and able to make decisions quickly. Also, you have a good sense of timing, especially when it comes to recognising profitable opportunities. You are competitive, in a good-natured way, and most likely enjoy sports, adventurous games or various forms of physical exercise. You need to be aware that a 'might is right' attitude and cocky or arrogant behaviour won't win you friends. There is the likelihood of philosophical differences with others.

## **Mars Square Pluto (7°51' S)**

Quite simply, this aspect gives you the power to express your energies in either a positive and constructive manner or in a wilful and destructive fashion. Whichever way you use it, you are a force to be reckoned with. Positively, you have extraordinary staying power, which enables you to work long and demanding hours and to push

yourself to the limit when required. Negatively, a desire to dominate or manipulate people can backfire on you and cause confrontations and power struggles. Worse still, you can become emotionally reactive and vengeful if you don't get things your own way. Injuries are possible in high-risk situations or environments.

## Jupiter

**Jupiter describes how you relate to the larger world beyond your personal self, how you expand in life, and experience higher learning, travel or religion.**

### Jupiter in Taurus

You have an accentuated desire to acquire possessions and to gain material security. With regard to judicial or religious matters, you tend to hold orthodox views and conservative attitudes. You know how to enjoy the good things in life; however you can be inclined to over-indulgence.

### Jupiter in 11th House

You are likely to enjoy the patronage of many friends and the favour of those in high positions. You may find it advantageous for your career advancement to belong to groups or societies. Likewise, you are kind and generous towards your friends and value their friendship. You are able to achieve things in life with the co-operation of others, due to a generally positive attitude and optimism. Your hopes and aspirations are realised in life.

### Jupiter Trine Neptune (3°12' S)

You are a selfless and compassionate person who is receptive to the needs of others. Spiritual subjects interest you greatly and it is possible that you possess psychic ability. You have a great amount of imagination and inspiration, which you may effectively channel into creative expressions such as music, theatre, dance, film or painting. You are essentially an idealist who sometimes sees the world through rose-tinted glasses. As a result, you can perceive situations to be quite different to what they are in reality.

### Jupiter Opposition Pluto (2°09' S)

You have a strong desire to make your mark on the world and to accomplish something of significance. Your ambition and self-motivation is pronounced, and you will pursue your goals in life with passion and intensity. If other factors in your chart support it, this aspect can bring you power and leadership over others. At the very least, you will be known in your own group or community for organising others and taking charge of situations. However, watch that you don't let power go to your head, because you will

turn people against you, especially if they think they're being manipulated. Similarly, you can risk placing yourself in serious loss situations if you provoke those with greater authority than yourself.

## Saturn

**Saturn describes your experience of reality, your fears and inhibitions, where you are serious, and how you respond to society's rules.**

### **Saturn in Capricorn**

Your will is strong and unyielding. Ambitious for power, status and authority, you tend to measure your self-worth through how satisfied you are with your personal achievements. You are self-disciplined, practical, frugal and aware of your responsibilities.

### **Saturn in 6th House**

You take your work seriously and are a stickler for correct procedure. You have little tolerance for shirkers in the workplace. At times, there can be difficulties with employment matters. If you are an employer, you may experience problems with staff, such as losses, deception and unreliability. You may experience health problems through inadequacies in your diet, or through worry or overwork.

### **Saturn Conjunct Uranus (1°25' A)**

This aspect happens only once every 46 years due to the slow orbital speeds of these two planets. Socially, it represents periods of violent disruption in the world and the sudden tearing down of established structures: consider, for example, the resulting break up of the Soviet Union following the most recent conjunction of Saturn and Uranus in 1988. On a personal level, you often feel tense and churned up inside, as you struggle between the urge to conform and the urge to assert your individuality. One side of you wants to be like everyone else while the other side cannot bear the thought of it. For your own peace of mind you need to find a balance between these conflicting urges. You are quite rebellious and will buck against anyone or anything that restricts your freedom. Also, when you feel the pressure for change building up within you, don't suppress it because you may cause yourself stress and even possible physical injury.

### **Saturn Conjunct Neptune (7°58' S)**

These two planets are almost polar opposites: Saturn represents reality and boundaries and Neptune represents that which is beyond reality and without boundaries. Having this aspect means you experience periodic struggles between pursuing your spiritual

inclinations and meeting the demands of the material world. Physically, you are prone to re-cycling bouts of low vitality and illness. In spite of the challenges you encounter in life, you never waver in your desire to help others.

## Uranus

You look for employment in fields that offer a fair amount of change and variety, coupled with a measure of autonomy, as you tend not to conform easily to the authority of others. You are suited to work that incorporates modern working methods and up-to-date technology. In regard to matters of health, you tend to be attracted to non-traditional healing techniques.

## Neptune

**Neptune a generational planet - describes your personal and peer group experiences of spirituality, your powers of inspired fantasy and areas of illusion.**

### Neptune in Capricorn

You are inclined to hold idealistic or unrealistic views about big business, multi-nationalism and government policies. However, you are equally aware of the danger of placing indiscriminate faith in established structures because you recognise their underlying fragility. You are part of a generation that witnesses the dissolving of national boundaries, through such phenomena as the Internet and global communication.

### Neptune in 7th House

You tend to have an idealistic attitude in relationships and can expect too much of others or partners, which can lead to disappointments or let downs. Difficulties may be experienced in relationships through misunderstandings or poorly defined individual boundaries. Deception can be a factor in the breakdown of unions. For you, an ideal partner is someone who understands and respects your need for spiritual connection between one another.

### Neptune Sextile Pluto (1°02' A)

Neptune and Pluto are the solar system's slowest moving planets; consequently aspects between them last for a great number of years and their effects are less personal than collective. Since 1940 and continuing until about 2040 they are in sextile aspect to each other. The major effect of this is to accentuate spiritual awareness and development en masse. You are part of a generation that is intent on exploring and refining the inner aspect of life and consciousness itself. You will be aware of a universal interest in metaphysical subjects, clairvoyance and psychical research.

## Pluto

**Pluto a generational planet - describes your personal and peer group experience of upheavals, forces beyond individual control, power and irreversible changes.**

## **The Qualities and Elements**

The signs of the zodiac are grouped into two basic categories. These are known as the Qualities and the Elements. The Qualities describe fundamental modes of activity and the Elements describe temperament. There are three Qualities: Cardinal, Fixed & Mutable and four Elements: Fire, Air, Earth & Water. Your horoscope has varying degrees of each Quality and Element. The percentages you have of each will determine their importance in your life. The higher percentages will be more powerful in your life, the lower percentages will be less powerful.

sensitive to the opinions of others, but they can also be impressionable and easily influenced by environmental circumstances. Mutable people lack the stubbornness of the Fixed signs and the forcefulness of the Cardinal signs, which makes them good mediators and go-betweens.
