Introduction

Welcome to your astrology compatibility report.

This report is based on the astrology technique of Synastry, which compares the horoscopes of two people and interprets the correlations between them.

The first part of the report analyses the mix of Qualities and Elements between you to give a general indication of your modes of behaviour.

The second part looks at the placements of each other's planets in one another's natal houses. This indicates how you influence each other in the areas of life represented by the houses occupied by one another's planets.

The third part interprets the inter-aspects between your two charts. This shows how you relate to each other. Some of these interpretations are positive and easy and others are challenging.

Your Synastry report reveals your areas of harmony and compatibility as well as your areas of tension and conflict. Hold in mind that human relationships are complex and contradictions can occur in the interpretation.

Qualities and Elements

Harry's strongest Quality is Fixed and Meghan's strongest Quality is Cardinal

Relationships between Cardinal and Fixed personalities are challenging. Meghan likes change and is good at getting things off the ground; whereas Harry resists change and tends to hold onto the known and familiar. Problems can arise between you if Meghan's initiatives are opposed or Harry stubbornly refuses to move forward in life. Positively, Meghan stimulates and stirs Harry into action and he, in turn, has a stabilising influence on her.

Harry's strongest Element is Earth and Meghan's strongest Element is Fire

Relationships between Fire and Earth personalities can be mutually advantageous. Meghan is enterprising and outgoing, whereas Harry is security conscious and cautious. Harry benefits from the opportunities that Meghan creates and she, in turn, benefits from his common sense and ability to provide material protection. Problems can arise between you, however, if Meghan becomes frustrated with Harry's lack of imagination, or if Harry can't cope with Meghan's constant need for change and excitement.

Harry's Houses

Meghan's Planets in your Houses

Her Sun is in your 7th House

This is a classic partnership combination. You recognise just how important Meghan is in your life. It is as if you and she are meant for one another. She lights up your life and shows you what relationships are all about - for better or worse.

Her Moon is in your 8th House

When it comes to managing your joint finances Meghan's instincts should always be heeded. If she has a good or a bad feeling about anything that could change your

financial security, be sure to look into it more deeply. You will probably have arguments over money; however it is always better to be sure than sorry.

Her Mercury is in your 7th House

You think of Meghan as your partner and personal sounding board. There are things that you can say to her that only she can understand and appreciate. You are attracted to her intelligence and way of thinking. She stimulates you mentally and there is an ease of communication between you.

Her Venus is in your 8th House

There can be issues to contend with concerning joint resources and finances. It is important to establish some guidelines with regards to expenditure and to avoid high risk activities or investments. On the personal front, she can help you come to terms your most personal fears and anxieties.

Her Mars is in your 6th House

She may enthusiastically embrace the type of work you do and even help you with it in some capacity. However, she may have expectations of you that you find hard to meet. If this happens, watch that she doesn't come to think less of you and begin to act against you. Unfortunately, you tend to be in a weakened position and your health could suffer.

Her Jupiter is in your 8th House

This is a good combination for business related activity. You may borrow money from one another or lend it to each other. Through Meghan's efforts and abilities there is the possibility that you can prosper together and even gain a measure of wealth.

Her Saturn is in your 8th House

Use of resources is an ongoing problem between you. She may try to control your joint activities, which can cause feelings of anxiety or resentment between you. There is a risk of getting into debt. Running a business together might not be a good idea.

Her Uranus is in your 10th House

Your direction in life suddenly came to a crossroad when you met her. All of a sudden you started considering alternative personal or professional options. She awakened you to a raft of possibilities and pointed out that there are numerous life-paths on offer to check out. Just one word of warning, don't be in too much of a hurry to make radical changes to your life - be guided by your intuition first and foremost.

Her Neptune is in your 11th House

Your friends don't quite know what to make of Meghan. To some of them she is charming and idealistic, while others think she is potentially deceitful or dishonest. Both assessments may be correct or completely off target. Trust your own instincts and give her the benefit of the doubt.

Her Pluto is in your 9th House

She can literally transform the way you see the world. She has strong beliefs and convictions that she may try to force on to you and other people. Her charisma is undeniable. You have to take care that you don't adopt her ideals unwittingly.

Her Moon's North Node is in your 7th House

Through her ideas and actions she teaches you the significance of personal relationships and partnerships.

Her Ascendant is in your 7th House

You 'know' this person. In Meghan, you recognise a buddy who could be that and more. You may be hanging out together for quite some time.

Her Midheaven is in your 2nd House

The financial aspirations you have are not dissimilar to Meghan's. She appreciates the way you handle money and the attitude you have towards material possessions. It is possible that you may invest in a professional project she is involved in.

Meghan's Houses

Harry's Planets in your Houses

His Sun is in your 3rd House

Communication is vital to this relationship. Harry encourages you to speak your mind and you will probably have many heart to heart discussions with each other. He may tend to initiate or dominate conversations. After all, he likes to be at the centre of attention. One of the best ways to keep things stimulating between you is to have the occasional short trip away together.

His Moon is in your 11th House

Here is someone who you can get close to and call a friend. He instinctively tunes into your needs and enjoys spending time with you. Quite possibly, you met each other in a social setting or through a mutual friend. He readily supports your ambitions and goals in life.

His Mercury is in your 2nd House

You and Harry talk a lot about financial and business matters. No doubt, he has many ideas on how you can spend or invest your money; just make sure that you are confident he knows what he's talking about. If you do trust his abilities he can help you make good financial decisions.

His Venus is in your 4th House

Intimate candlelight dinners at home can be a real pleasure for you both. You enjoy being at home and are at your happiest when you're involved in beautifying or improving the value of your property. Building a nest together is important to you.

His Mars is in your 5th House

Here is someone who you can be adventurous with in love. He knows how to push your romantic buttons - and let's be honest - turn you on. You feel alive when you are together. Often, all you want to do is have fun and play. This is one love affair that will make an impact on you. However, be warned, there is the potential for being scarred if things go wrong - and they can.

His Jupiter is in your 6th House

He has a beneficial influence on your experience of work; he could even be your teacher in some kind of specialised field. You look after each other's health needs and strive to live a healthy and happy life. You recognise the importance and benefits of a good diet and physical exercise.

His Saturn is in your 4th House

Living together in harmony might not be the easiest state to achieve. He tends to throw his weight around on the home front. He feels that he has to control or take charge of situations, even when it's not wanted or required. His relationship with your family may be problematic. On the other hand, he may well have insight into family problems and this may be an area you face together.

His Uranus is in your 5th House

There's a good chance that your attraction to Harry took you by surprise and came upon you quite suddenly. You looked up one day and there he was. This is one of those 'love

at first sight' affairs that tend to start and end quite abruptly. The key to your relationship is to live for the moment and enjoy the now.

His Neptune is in your 6th House

Your work may be a complete mystery to him. He might pretend to know what it is you do or appreciate its importance to you. There's probably little point in trying to explain it to him though because it is not part of his reality. He may also have some difficulty understanding the attraction some people have to holistic healing practices.

His Pluto is in your 4th House

You can't help but feel Harry's presence in your domestic environment. If you live together - or even if you don't - he manages to exercise a controlling influence around the home. Your family may find him a bit hard to take, as they see him or his family as dominating and controlling.

His Moon's North Node is in your 11th House

Through his ideas and actions he teaches you the value of friendship and social interaction.

His Ascendant is in your 6th House

Here is someone who has a correct grasp of what you're trying to get done in life and he has just the right skills you're looking for. He is always ready to lend a hand.

His Midheaven is in your 4th House

He has similar domestic goals as you. He understands how important home and family-life are to you.

One of the things that attracted you to each other is your mutual sense of fun. You love spontaneity and giving each other surprises. You are both up for new experiences and get a kick out of trying new things together. Other people like being around you because of the positive way you 'spark off' of one another.

Harry's Sun is Square Meghan's Neptune 0°38' S

The main concern of this aspect, from a relationship perspective, is do you trust one another and are you honest with each other? There can be a tendency to evade important issues within your relationship or to do things behind each other's backs. There can also be problems with intoxicants and difficulties caused by deception or unreliability. Positively, there is a strong inner connection between you and you are able to pick up one on another intuitively. Deep down, you both know what the other needs and expects of each other.

Harry's Sun is Sextile Meghan's Ascendant 1°20' S

A harmonious aspect between the Ascendant and the Sun makes for an ease of individual and social interaction. You are able to relate well to each other and come across to others as a confident couple who look right together.

Harry's Moon is Opposition Meghan's Uranus 4°43' A

One - or both - of you knew from your first contact that something would develop between you. Intuition plays a strong part in your relationship. Your living arrangements are likely to be unconventional and you enjoy keeping others guessing about the nature of your relationship. Both of you value personal freedom and you know when to give each other time out or breathing space.

Harry's Venus is Sextile Meghan's Neptune 4°37' A

You make fine music together and you both feel that you have found true romance together - and you have up to a point. Just don't put too many expectations on each other and keep it real, otherwise one or both of you could end up feeling a bit disillusioned. At the end of the day though, your love and devotion to each other win through.

Harry's Venus is Conjunct Meghan's Pluto 4°09' A

The power of attraction between you is intense and undeniable. It is as if you have been drawn to one another by some kind of force. Your connection may seem fateful or predestined. Possibly, you may think that the reason you have come together is because you have something to work out between you; some unfinished business. There can be power struggles and the danger of one of you trying to manipulate or coerce the other. Guard against jealousy and possessiveness.

Harry's Venus is Opposition Meghan's Midheaven 5°54' A

The connection between you is deep and loving. You feel that you really know each other intimately and that you belong together. You have similar personal and family interests. Your home is beautiful and harmonious.

This is an important aspect in love and marriage relationships, because it is all about your sex-life together. You need to keep each other interested in one another; otherwise there is the risk of unfaithfulness.

Harry's Mars is Conjunct Meghan's Neptune 5°22' A

At its best, this planetary link can enable you to do spiritual work or practices together. Or, if you are artistically inclined, you can direct your energies into artistic and creative activities. Equally, however, there may be the tendency for one of you to undermine the drive and confidence of the other. One partner is at risk of being swayed off course or led astray by the other. There may be issues between you involving alcohol or drugs.

Travelling together is not without its ups and downs.

Meghan's Sun is Square Harry's Saturn 0°51' A

This is a difficult combination. There are issues of control and domination to contend with; with one of you trying to restrict the freedom of the other. It is important to appreciate each other's personalities and to avoid criticizing or putting one another down.

Meghan's Venus is Square Harry's Uranus 3°16' S

It is highly likely that you were instantly attracted to each other the first time you met. You immediately recognised a fellow adventurer in love. Otherwise, you will become bored with one another and start looking for excitement elsewhere.

You are adventure seekers who enjoy challenges and competing with each other. Physical activity is a strong feature of your relationship. You do a lot of different things together and like keeping busy and active. You are direct and frank with one another and know where you stand with each other. At times, you may get impatient or even angry with one another and cook up arguments to bring things to a head.

Meghan's Jupiter is Square Harry's Ascendant 4°50' S

In general, you get along well with each other and tolerate one another's personal beliefs, even if you don't wholeheartedly agree with them. You are both motivated by the desire to improve your standing in the world and increase your financial power. There may be some difficulties between you caused by extravagance and squandering on the part of one or both of you.

Meghan's Saturn is Square Harry's Ascendant 5°39' S

This is not one of the most ideal astrological combinations for partnership and marriage. There are issues of control and dominance for you to work out between you. One of you tends to dictate the terms of the relationship, much to the chagrin and frustration of the other. Thoughts of separation often cross your minds.
